If yes, describe.

An eligible household will have the option of using a portion of their allocation (benefit amount) for low-cost energy saving measure/devices. For example the household could purchase a small electric heater or warming devices that could be used to warm only the living area of a home, which would reduce energy consumption. the limit would be \$ 75.00 and would be a certificate to the household. This certificate would be redeemed at the vendor for minor weatherization supplies: plastic, lath, caulk, weather strip duct tape and or/heating devices. The value of the certificate would be deducted from the household benefits the balance of which would be sent to the household energy vendor. This require the household to install their own weatherization supplies. If the household only requires a limited amount of plastic, the LIHEAP program will purchase bulk plastic, lath, tape, etc, that will be installed by the Tribal program or the household could install it themselves. Becasue bulk purchase of these materials the cost would be minimal and would not count against the household benefits. A household deire to receive the certificate is indicated by the household on the application.

14.1 Do you plan to submit an application for the leveraging incentive program?

Yes No

14.2 Describe instructions to any third parties and/or local agencies for submitting LIHEAP leveraging resource information and retaining records.

1. Cold Weather

This activity is where the LIHEAP staff has communicated orally and/or in writing about how to meet the emergency home energy needs of specific, individuals households. For the duration of the LIHEAP program, this communication takes place before assistance is provided to each household. Developed from this communication was a leveraging activity, which we have termed the " Cold Weather" program. The Fort Peck Tribes provided non-federal Tribal funds that would be used for emergency assistance to program participants. The Fort Peck Tribes provides an individual to administer this assistance to eligible clients.

There was intergration between the LIHEAP program and the cold weather program that worked in this way. The individual was referred by the LIHEAP staff to the cold weather program. An application for assistance was submitted to "Cold Weather" and the household had to meet the requirements of the Cold Weather program and verified by the administrator.

2. Tribal Funds Energy Payment

Another leveraging activity, is when it is determined that the funds available through LIHEAP are insufficient to meet the needs of the Tribal Elders, this leveraging activity will take place. The Community Services Program Director will make a request for emergency funds to the Fort Peck Tribes (resource). The Fort Peck Tribes will provide non-federal Tribal funds to be used for emergency assistance, if they have Tribal funds available.

This resource is not available tothe household when assistance is available from the LIHEAP heathing component. To receive these emergency leveraged benefits, the application completes an application at the LIHEAP office and will receive an amount of assistance which is dependent upon the availability fo funds. The assistance will be either an order of propane or payment to the energy vendor to prevent a shut off of natural gas or electricity.

3. CITGO Funds

This leveraging activity is a financial contribution that may become available form CITGO Petroleum Corporation, which will be used for emergency assistance for eligible LIHEAP households. The non- federal funds that may be received from CITGO Petroleum Corporation will provide additional benefits to an eligible LIHEAP household and will be used to pay a protion of the household energy expense. The payment for the household will be a financial payment to the households vendors(eligible LIHEAP program vendor).

This leveraging activity is a financial contribution that may become
