Provide further explanation for the dates of operation, if necessary

Arizona has identified date ranges for heating and cooling, and has assigned a date range to each county for FFY 2020.

1) HEATING (November 1-March 31) and COOLING (April 1-October 21) for counties: Coconino, Yavapai, Navajo, Apache, Greenlee, Graham, Cochise, and Santa Cruz.

2) HEATING (December 1-March 31) and COOLING (April 1-November 30) for counties: Mojave, La Paz, Yuma, Maricopa, Gila, Pinal, and Pima.

The heating and cooling months overlap doing to weather conditions. The budget for each Community Action Agency

The heating and cooling months illustrate when heating and cooling began for each Arizona region. The above dates are based in the calendar year and not on the FFY 2019. Funding for the Federal Fiscal Year is not effected by the heating and cooling months listed above.

Energy Related Repair (EER) Crisis assistance start date: 10/01/2019 or when funds are available, whichever is later. End date 9/30/2020. When a date of operation falls on a weekend or holiday the effective dates will be the first business day following the list date with the exception of 9/30. The last date of operation for the federal fiscal year or the last business days 9/30.

4.2 Provide your LIHEAP program’s definition for determining a crisis.

A crisis exists when a household faces an energy burden which depletes or threatens to deplete financial resources, or which poses a portent of health and/or safety threat to the well-being household.

- A client is considered to be in a crisis when the household has received a shut-off or eviction notice and/or is pending loss of energy.
- Eligible LIHEAP crisis applicants must be provided some type of assistance within 48 hours, as funding/resources are available.
- A crisis is defined as a delinquent or shut-off notice, or if utilities are included in the rent, an eviction notice is required.

Added to the definition of a crisis is the determination of a Human Service Emergency made by the Arizona Department of Economic Security. A Human Service Emergency includes, but is not limited to, fire or flood which results in the evacuation of homes and shelters. Upon determination of a Human Service Emergency, households affected may be assisted with costs to temporarily shelter or house individuals in hotels, apartments, or other living situations, i.e. placing people in settings to preserve health and safety and to move them away from the crisis situation.

4.3 What constitutes a life-threatening crisis?

When an eligible LIHEAP crisis client meets criteria and the household is considered to be in a life-threatening emergency per, but not limited to the following criteria:

- The client can establish through medical documentation that in the opinion of a licensed medical physician, termination of power, or exposure to heat or cold would be especially dangerous to the health of a client or a permanent resident on the client's premises.
- Life-supporting equipment used in the home that is dependent on utility services for operation of such apparatus.
- A client is considered to be in a life-threatening crisis when the household has, no heating, no cooling distribution, and the air temperature is not a safe level and the household does not have an alternative or temporary heating or cooling source (see weatherization).
- A life-threatening crisis is defined as, but not limited to, individuals who are exposed to extreme outdoor temperatures that adversely affect their health and can potentially directly or indirectly lead to death.
- A household member’s health and/or well being would likely be endangered if energy assistance is not provided.

Crisis Requirement, 2604(c)

4.4 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households? 48 Hours

4.5 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households in life-threatening situations? 18 Hours

Crisis Eligibility, 2605(c)(1)(A)

4.17 Describe the terms of the moratorium and any special dispensation received by LIHEAP clients during or after the moratorium period.

Several of Arizona's energy vendors enforce moratoriums with varying criteria. The largest energy vendors are represented below with their specific guidelines.

In accordance with Arizona Administrative Code 14-2-211(A)(5)(c) and 14-2-201(46), Arizona Public Service (APS) uses 32 degrees Fahrenheit as the point in which they stop disconnections for non-payment for low temperatures. In addition, APS also developed an internal business process where disconnections are suppressed for non-payment when high heat stress indexes are present, as determined by the Phoenix Heat Alert website that relies on heat and humidity predictions from the National Oceanic and Atmospheric Administration (NOAA).
Southwest Gas (SWG) tariff is prohibited from performing shutoffs during periods of time where weather will be especially dangerous to one's health. These weather conditions are defined as that period of time commencing with the scheduled determination date when the local weather forecast, as predicted by NOAA, indicates that the temperature will not exceed 32 degrees Fahrenheit for the next day's forecast. The Corporation Commission may determine that other weather conditions are especially dangerous to one's health as the need arises.

Salt River Project (SRP) self-initiates moratoriums in the winter and summer based on weather conditions. The duration of the self-initiated moratorium fluctuates based on weather conditions. The criteria for moratoriums are extreme cold temperatures or excessive heat warnings issued by the National Weather Service.

- [x] Mostly under LIHEAP rules with the following DOE WAP rule(s) where LIHEAP and WAP rules differ (Check all that apply):
  - [x] Income Threshold  
  - Weatherization of entire multi-family housing structure is permitted if at least 66% of units (50% in 2- & 4-unit buildings) are eligible units or will become eligible within 180 days  
  - Weatherize shelters temporarily housing primarily low income persons (excluding nursing homes, prisons, and similar institutional care facilities).

- Other - Describe:
  - Weatherization Measures are not subject to DOE Savings to Investment Ratio (SIR) Standards.
  - Energy Related Repair (ERR) is a crisis program for heating and cooling systems that do not heat or cool, do not distribute heat or cooling, are malfunctioning or have health and safety issues (such as producing carbon monoxide). Households must be homeowners as landlords are required to maintain heat or cooling in rental units. The Arizona Department of Housing determines prioritization of needs for ERR and funding as available.
    - If the regular weatherization benefits resolves a crisis, no prioritization will be utilized. A client is considered to be in a life-threatening crisis when the household has:
      - No heating or cooling
      - No heating or cooling distribution

This cooperation is in the form of both formal and informal meetings, coordination of contracting procedures and contractors, exchange of significant correspondence, and joint planning. Currently, the same Director administers the Community Services, Social Services, and Low Income Home Energy Assistance Program Block Grants. Coordination between LIHEAP, CSBG, and TANF Block Grants occurs on a regular basis to ensure that the needs of the low-income households are addressed. The LIHEAP Weatherization Program is administered by the Arizona Department of Housing.

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.

Schedule—Monitoring of Service Providers will occur at least once every three years. Any Service Provider that has a particular problem will be given technical assistance until the problem is resolved.

Focus—Monitoring focuses on the following areas: program, fiscal, policy, and general contract requirements. Monitoring may occur through a desk review of materials or on-site monitoring. Weatherization monitoring encompasses the aforementioned areas, plus on-site quality control inspection of weatherized homes. Monitoring visits are also used for contractor training and technical assistance as required. Monitoring relates to Service Providers' separate evaluations of internal controls, such as control self-assessments or internal procedures and performance. Internal monitoring processes shall be practiced by Service Providers. LIHEAP Service Providers have a responsibility to monitor and be monitored for compliance with program requirements.

The Arizona Department of Economic Security monitors Service Providers' compliance with all requirements of federal, state, and local laws, the contractual requirements, and directives in the policy manual. The Service Provider shall cooperate in the evaluation of contracted services. The evaluation may assess the Service Provider's progress and/or success in achieving the goals, objectives, and deliverables set forth in their contract related to LIHEAP.

Protocol—The Arizona Department of Economic Security shall provide the Service Provider with the request for needed documents, such as case management files, and fiscal and administrative records, at least one week prior to the scheduled monitoring date. Regarding unscheduled monitoring, the Arizona Department of Economic Security may request needed documents while on site without prior notice. The Arizona Department of Economic Security will communicate recommendations of findings with key personnel and provide the opportunity for clarification, and will provide written results of the monitoring within a reasonable amount of time.

The Service Provider will ensure that key personnel are available for discussion during the scheduled monitoring and that the requested records are available and in order beginning on the first day of the scheduled on-site monitoring visit. It is the Arizona Department of Economic Security's expectation that the monitoring will begin at the agreed date and time for scheduled monitoring.

The on-site monitoring visit will include these activities:

The interview should include the Arizona Department of Economic Security Contract Specialist, Arizona Department of Economic Security Program Specialist, and the Service Provider's Program Manager. It may include other Arizona Department of Economic Security and Service Provider staff upon request of the Arizona Department of Economic Security Program Specialist, or at the discretion of the Service Provider. The entrance interview will describe the monitoring activities that will take place, review the monitoring process, and schedule interviews with other Service Provider staff, as requested by the Arizona Department of Economic Security monitoring team.

On-site compliance monitoring will consist of a program review, with follow-up questions appropriate to the local situation. In order to complete the compliance monitoring, the Arizona Department of Economic Security Contract Specialist and/or the Arizona Department of Economic Security Program Specialist will interview the Service Provider Program Manager, the Fiscal Director, the position responsible for outreach activities, and any other staff whose work is integral to the program, as well as applicants.

10.7. Describe how you select local agencies for monitoring reviews.

Site Visits:

Service providers are monitored at least once every three years. If there are concerns related to a specific Service Provider's operations, that Service Provider would be a priority for monitoring.

Desk Reviews:

Desk reviews are conducted on a monthly basis for financial and contract compliance.

10.8. How often is each local agency monitored?

Service providers are monitored at least once every three years.

10.9. What is the combined error rate for eligibility determinations? OPTIONAL

The Arizona Department of Economic Security has not captured collective data in this area; however, resolution to eligibility determination issues is addressed at the time of monitoring and in a formal Report of Findings.
