

Oklahoma Matrix calculation is complex. Majority of our utility providers are regulated providers by the Oklahoma Corporation Commission. Therefore, the Oklahoma Matrix is a combined outcome which take many sources into consideration and computation but not limited to average cost per utility type, LIHEAP performance measure, and regional

When payment is made to utility company	Net income	Household size 1-3	Household size 4-6	Household size 7+
Natural gas, electricity, wood, coal	\$0 - \$400	\$265	\$292	\$312
	\$401 - \$700	\$225	\$248	\$265
	\$701 - ineligible	\$200	\$220	\$235
LP gas, kerosene, heating oil	\$0 - \$400	\$330	\$363.00	\$388
	\$401 - \$700	\$275	\$302.50	\$324
	\$701 - ineligible	\$245	\$269.50	\$288
