

LIHEAP Crisis 2019

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
Alabama	A household member's health and/or well-being would likely be endangered if energy assistance is not provided.	150% FPG	\$990	\$870	\$0
Alaska	The household must be within 48 hours of shutoff, out of fuel, or within a day of running out of fuel. Also, their income for the month prior to the date they signed their application must be less than their shelter costs (mortgage/rent, electric and heat) for the same time period.	150% FPG	\$3,850	\$0	\$0
American Samoa	<p>What constitutes a crisis:</p> <ul style="list-style-type: none"> a. Disconnection or shut-off notice b. flooding (or rainy season causes heavy flooding and impact some of the clients) c. Natural disasters - Cyclone Gita hit the Territory in January of 2018 d. Man-made distaters - fires, flooding, etc. e. High temperatures - prompting households with priority population to apply for AC units. 	150% FPG	\$0	\$0	\$800
Arizona	<p>A crisis is defined as a delinquent or shut off notice, or if utilities are included in the rent, an eviction notice is required. Added to the definition of a crisis is the determination of a Human Service Emergency made by the Arizona Department of Economic Security. A Human Service Emergency includes, but is not limited to, fire or flood which results in the evacuation of homes and shelters. Upon determination of a Human Service Emergency, households affected may be assisted with costs to temporarily shelter or house individuals in hotels, apartments, or other living situations, i.e. placing people in settings to preserve health and safety and to move them away from the crisis situation.</p>	60% SMI (>7 at 150% FPG)			\$500
Arkansas	The household must have an energy related emergency situation, instances of extreme hot or cold temperatures or other energy related disasters such as floods, storms, etc. and/or "state of emergency" as designated by the Governor.	60% SMI	\$500	\$500	

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
California	<p>CSD uses the federal definition of a crisis (Low Income Energy Assistance Act § 2603 (3)): "weather-related and supply shortage emergencies and other household energy related emergencies." Crisis funds may only be used in accordance with the federal definition, including:</p> <p>A natural disaster (whether or not officially declared), A significant home energy supply shortage or disruption, An official declaration of a significant increase in:</p> <ul style="list-style-type: none"> - Home energy costs, - Home energy disconnections, - Enrollment in public benefit programs, - Unemployment and layoffs, or <p>An official emergency declaration by the Secretary of Health and Human Services, In those situations where there is not an official federal, state, or local declaration of emergency, an emergency may be deemed to exist by CSD where there is imminent danger, requiring immediate action to prevent or mitigate the loss or impairment of life, health, property, or essential public services.</p>	60% SMI	\$0	\$0	\$1,000
Colorado	<p>A household in crisis is one where service has been discontinued or is threatened to be discontinued, is out of fuel or will run out of fuel, or is responsible for heating costs that are included in rent and has received an eviction notice. A crisis also includes a household whose primary heating system is inoperable or access to a fuel tank is not possible due to severe weather.</p>	165 FPG	\$800	\$0	\$3,700
Connecticut	<p>There are two categories of "Crisis" in use. "Winter Crisis" refers to benefits provided to households that have fully utilized their 'heating' assistance benefit and are still in need of assistance. "Other Crisis" assistance refers to benefits provided to households that have fully utilized their 'heating' and 'Winter Crisis' benefits and are in a life-threatening situation. The eligibility threshold for households receiving "Other Crisis" benefits is 200 % FPG.</p>	60 SMI (200% FPG for "Other Crisis" assistance).	\$710	\$0	\$0

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
D.C.	A household is considered in crisis if they have received a shut-off notice, their energy service has been disconnected or household heating oil is at 5% or less.	60% SMI	\$600	\$600	\$600
Delaware	<p>Income eligible households are deemed to be experiencing an energy crisis whenever:</p> <ol style="list-style-type: none"> 1. the local administering agency determines through a financial assessment, that the household is currently without sufficient financial resources and has no prospect for receiving financial resources within the next 48 hours, that could be utilized to alleviate the crisis; or 2. has already been disconnected from the utility services which provided heating to the household; or 3. has received a notice from the utility service which provides heating to the household that the services will be disconnected within 48 hours; or 4. the household is out of bulk heating fuel; or 5. exorbitant rise in price of any home energy fuel type may be deemed a crisis at the discretion of the State. 6. When designated by the LIHEAP Administrator, summer crisis benefits may be paid to avoid disconnection of services. <p>In addition, the current weather conditions or the weather conditions forecast for the next 24 hours, must, in the judgment of the local administering agency, be such that they pose a threat to the health or safety of one or more members of an eligible household if heating is not provided to the household during these weather conditions.</p>	200% FPG	\$0		\$5,000

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
Florida	<p>Florida has a statewide definition of crisis that all subgrantees must use in determining if a client is eligible for a crisis benefit: Home Energy Crisis - shall be defined as no access or being in immediate danger of losing access to needed home energy because of any of the following:</p> <ul style="list-style-type: none"> a. The Applicant's home cooling or heating energy source has been cut off; b. The Applicant has been notified that the energy source for cooling or heating is going to be cut off; c. The Applicant has received a notice indicating the energy source is delinquent or past due; d. The Applicant is unable to get delivery of fuel for heating, is out of fuel for heating, or is in danger of being out of fuel for heating; e. The Applicant has a bill for which the due date has lapsed; or f. The Applicant has other problems with lack of cooling or heating in the home, such as needing to pay a deposit, needing a repair or purchase of heating or cooling equipment, or needing interim emergency measures to avoid further crisis. 	150% FPG	\$600	\$600	\$0
Georgia	A crisis is determined when a low-income household is facing imminent disconnection and/or needs restoration of their heating or cooling fuel source. A crisis may also result from a weather-related emergency, which affects all, or a specific area of the state.	60% SMI	\$350	\$0	\$0
Hawaii	Utility power at the household's current residence has been terminated within 30 days of application or will be terminated within seven days of application because of nonpayment of utility bill.	150% FPG	\$0	\$0	\$650
Idaho	Idaho defines a crisis as a situation where an eligible household: is at risk of disconnection of utility service; has had their utility service disconnected; or has less than 48 hours of bulk fuel.	150% FPG	\$0	\$0	\$750

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
Illinois	<p>In the event of a household's energy related crisis, the Illinois Department of Commerce and Economic Opportunity (the Department), in coordination with other pertinent agencies, will develop an appropriate response designed to eliminate the threat to life and health. Under such condition, the Department may utilize a portion of available 2019 LIHEAP funding to provide crisis assistance to low-income households affected by the threatening conditions.</p> <p>Reconnection Assistance (RA) will be provided when a household is in imminent disconnection status or is already disconnected by the utility from its primary heat source or from any secondary energy source that is heat related. Disconnection will be considered imminent when disconnection will occur within 7 days without the provision of crisis assistance.</p> <p>Crisis assistance (Reconnection Assistance and Furnace Assistance) will be provided within 48 hours or 18 hours in the event of a life-threatening situation affecting the individual household. The 48/18 hour timeframe is from the daye the customer's application is completed and all required documentation has been received and verified.</p> <p>The amount of Reconnection Assistance will be the amount needed to restore energy service to the household.</p> <p>Households are eligible for Reconnection Assistance payments not to exceed a total of \$1,000 per household per year. Eligible households are limited to one Reconnection Assistance payment for the primary energy source and one for the secondary. Both payments combined cannot exceed the applicant benefit limit of \$1,000. Applications for primary and secondary Reconnection Assistance payments do not have to be done simultaneously. The household is allowed to apply for a Reconnection Assistance payment for one vendor, and then, if need exists, return to the Local Administering Agency (LAA) at a later date and apply for Reconnection Assistance benefit to the other vendor. This is not to be interpreted to mean that the household is entitled to the maximum benefit. The time of the application, the amount needed for reconnection, and the availability of funding will determine if each household</p>	150% FPG	\$1,000		

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
	<p>applying for Reconnection Assistance benefits will receive the maximum.</p> <p>Reconnection Assistance will not be made on behalf of a household unless it restores the household's energy service and/or the household makes a good faith effort to pay its home energy bills. If payment history does not demonstrate good faith, the customer will be required to pay a \$75 Good Faith Effort (GFE) payment to the utility or utilities that would receive the LIHEAP payment(s). The \$75 must be paid, preferably in cash or money order, at an authorized payment center within 15 days of the GFE notice (receipts from other forms of payment should also be accepted). Special attention will be paid to those households with extreme hardships that would not be able to pay the GFE amount. Local agencies, with the Department's consent, may waive the required GFE or contact local resources such as Catholic Charities, Salvation Army, and other local fund sources to arrange for the GFE payment. Customers may owe additional past due amounts above the \$75; the balance is the Customer Payment Responsibility (CPR). All GFE/CPR payments must be made in full prior to receiving any LIHEAP benefits (Direct Vendor Payment /DVP or Reconnection Assistance /RA). Local agencies may counsel these households to set up payment arrangements with their energy vendors. Furnace Assistance will be provided, until the furnace allocation is exhausted, to households that qualify for and receive a LIHEAP energy assistance benefit in the 2019 Program Year. Furnace Assistance benefits are for households that do not have an operating furnace and/or a safe heat source for their residence. Furnace Assistance benefits, which may include tune-up, repair, or replacement, will be utilized to restore a vital heat supply to the home. The Furnace Assistance component will be operated in collaboration with the LAA's Weatherization program; the LAAs are uniquely situated to define and develop individualized responses to energy related emergencies. Packaged (heating and cooling) units may be repaired or replaced using Furnace Assistance; as with any other furnace, replacements of these units must be justified as the safest, most cost effective measures needed to safely</p>		\$1,000		

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
	restore heat to the residence. Additionally, water heating venting correction are allowable health and safety expenditures.		\$1,000		
Indiana	A crisis situation is an energy emergency when there is a potential disconnection or depletion of the energy sources but is not considered a life threatening crisis. Non-life threatening crisis situations must be alleviated within 48 hours. Utilities: Has received a current Notice of Disconnection on residence primary heating sources, such as the electric or natural gas utility but yet not disconnected. Bulk Fuel: Client is low on bulk fuel (at or below 25% of a tank) but not out of fuel. Note: Propane and Fuel Oil will no longer be eligible for crisis. All crisis will be given up-front for propane and fuel oil. If a propane/fuel oil household has an electric crisis, it may waive up to \$200 of the heating benefit to electricity. These clients are eligible for emergency crisis services. Client households who heat with biofuel, such as corn, wood pellets, coal or wood may self-declare that are within (10) days of running out of their primary heating source. If the client has not signed the Self-Declaration of Primary Fuel Source Level, the LSP may confirm the crisis by phone and make a note in the statewide database.	60% SMI (>7 at 150% FPG)	\$400	\$200	
Iowa	Our Procedural Manual lists allowable crisis measures with expenditure limits. Those allowable measures address the following crisis situations: non-working furnace, temporary need for alternate shelter, disconnected from utility service, empty tank, disconnection from utility service imminent, tank less than 20% remaining, and when medically necessary provides a window air conditioning unit or repair of existing central air unit.	175% FPG			\$3,000
Kansas	The household must have received a shut-off notice or have less than 15% fuel left in their tank. The household has no heating fuel or no energy to operate the primary heating system.	130% FPG	\$1,724	\$0	\$0

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
Kentucky	<p>A household is considered to be in crisis if they meet basic LIHEAP eligibility criteria and:</p> <p>The household has a past due/disconnect notice, if electric or natural gas is the primary heating source; or</p> <p>The household is within four (4) days of running out of fuel if coal, wood, kerosene, fuel oil or propane is the primary heat source.</p>	130% FPG	\$250		
Louisiana	<p>A crisis exists when a household's energy source for heating and/or cooling has been disconnected or scheduled for disconnection, depleted and there are insufficient resources to resolve the situation. A crisis may also include weather-related alerts and supply shortage emergencies declared by state or federal government.</p>	60% SMI			\$475

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
Maine	<p>Energy Crisis shall have the same meaning as set forth in 42 U.S.C.A. §8622(3), as same may be amended from time to time. The term "energy crisis" means weather-related and supply shortage emergencies and other household energy-related emergencies.</p> <p>A household may be eligible for crisis assistance if there is an imminent loss of heat due to:</p> <p>Less than 3-day supply of fuel (e.g. reading of 1/8 tank or less on a standard 275 gallon heating oil tank; reading of 25% or less on a propane tank; "3-day or less" supply standard applies to other delivered fuel types).</p> <p>Disconnection of service notice from natural gas or electric utility if the household's heating system requires electricity/natural gas.</p> <p>Dysfunctional or unsafe primary heating system and no other operable heating system capable of heating the dwelling adequately during severe cold weather.</p> <p>Eviction due to nonpayment of rent if heat is included in the household's rent.</p> <p>A household is not considered to be in an energy crisis if:</p> <p>Household has any other heating system that is safe, operable, and capable of heating the dwelling adequately during severe cold weather, and</p> <p>has a supply of product for that heating system.</p> <p>Household has financial means to purchase fuel.</p> <p>Household has financial means to pay rent and avert eviction</p>	170% FPG	\$400		
Maryland	<p>Maryland defines an energy crisis as a situation wherein a household has no heat or a shortage of fuel supply or an immediate utility turn off (less than three days) during the normal winter period (November 15 through March 31). Local agencies may request a waiver to change the time length in the definition of the winter period.</p>	175% FPG			\$2,213

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
Massachusetts	<p>Eligibility for an energy-related crisis is based on the household's demonstration of immediate need for assistance with home heating fuel, electricity or energy-related home repair of a non-functioning furnace. Crisis means the following:</p> <p>An individual or household has received a past due or shut off notice on an energy bill for his or her household.</p> <p>A residential fuel tank is estimated to contain not more than 25% of its heating fuel capacity.</p> <p>A stated need for household deliverable fuel or a non-traditional fuel source in which there is no meter or regular energy bill provided (examples include: wood, corn, cherry pits, etc.).</p> <p>A notice that the balance of a prepayment account is below \$100.</p> <p>A statement from a licensed furnace provider indicating the homeowners's furnace is inoperable and in need of repair or replacement.</p>	150% FPG			\$1,200
Michigan	<p>Eligibility for an energy-related crisis is based on the household's demonstration of immediate need for assistance with home heating fuel, electricity or energy-related home repair of a non-functioning furnace. Crisis means the following:</p> <p>An individual or household has received a past due or shut off notice on an energy bill for his or her household.</p> <p>A residential fuel tank is estimated to contain not more than 25% of its heating fuel capacity.</p> <p>A stated need for household deliverable fuel or a non-traditional fuel source in which there is no meter or regular energy bill provided (examples include: wood, corn, cherry pits, etc.).</p> <p>A notice that the balance of a prepayment account is below \$100.</p> <p>A statement from a licensed furnace provider indicating the homeowners's furnace is inoperable and in need of repair or replacement.</p>	150% FPG	\$1,200		

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
Minnesota	<p>To receive a Crisis benefit, a household must: Request assistance with an energy emergency by either: Submitting a bill, disconnect notice or disconnection document verifying the energy emergency. OR Notifying the Service Provider of an energy emergency. Be EAP eligible. Have received a Primary Heat benefit that did not resolve the emergency. Have the emergency situation verified and documented by the Service Provider with the energy vendor at the time the Crisis benefit is determined. Be occupying the dwelling at the time Crisis is requested and the benefit is determined. Not have a redundant heating system that has fuel. An exception is that households with a redundant heating system are eligible for Crisis if the heating system that is out of fuel is needed to allow continuous heat to the dwelling (e.g. if the electric portion of the redundant heating system is on an off-peak discount program that interrupts electric heat to the dwelling.) Not have a Crisis payment that results in a credit on an account. Have one of the following Crisis reasons: Heat Related Shut Off. Heat Related Disconnection Notice. Less than 20% in Fuel Tank and Refusal to Deliver (RTD). Less than One Week Biofuel. Non-Heat Electric Shut Off. Non-Heat Electric Disconnection Notice. Senior Past Due or Current Energy Bill.</p>	50% SMI or 110% FPG if hh size is 15 or more	\$600

Missouri	The Energy Crisis Intervention Program (ECIP) is designed to provide financial assistance to households in a verifiable energy crisis. This crisis is defined as receipt of termination or disconnect notice indicating a specific disconnect date; a final billing statement advising the account has been terminated; if they are a cash on delivery (COD) customer, when the propane tank is filled at less than 20% capacity, and when a pre-paid electric customer indicates their pre-paid usage is about to run out.	135% FPG	\$800	\$300	\$0
Montana	<ol style="list-style-type: none"> 1. The household's primary supply of energy is interrupted because of weather conditions and another supply or a different type of energy is necessary. 2. Weather or other forces outside the control of the household damages the household's dwelling and causes the dwelling to suffer a severe loss of heat. 3. Hazardous or potentially hazardous conditions exist in the household's primary home water heating and/or space heating system, and safety modifications are required. 4. Any other home energy-related condition caused by severe weather conditions, fuel shortages, and/or acts of God. 5. The household has a documented medical need for home energy related safety modifications. Crisis cooling assistance is allowable during sustained high temperatures.	60% SMI (>7 at 150% FPG)	\$0	\$0	\$9,999
Nebraska	Nebraska defines a crisis situation as the household has a shut off notice, currently without heating or cooling, is in jeopardy of being taken off their budget plan, or an empty or near empty fuel tank.	130% FPG	\$0	\$0	\$500

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
Nevada	<p>"Energy emergency" for Division of Welfare and Supportive Services purposes has three meanings. The first means a household has had, or is in danger of having, their heating or electric service disconnected within 48 hours or is in need of heating fuel and has less than 10% in their tank, or is in need of a deposit or if having a loss of energy causes a life threatening situation, and must have requested a payment plan from the utility and been denied. The second means a household is in crisis when annual gross income exceeds the current income limit except allowable qualifying expenses attributable to the crisis reduces the income to the current income limit or less. The third means a household that has an established arrearage on their account with their heating and/or cooling vendor and such arrearage may result in utility shut-off.</p> <p>"Energy emergency" for Housing Division purposes means the household's primary cooling system is unsafe or inoperable during the summer months.</p> <p>In the event of an unexpected 'emergency' such as a weather-related event or a supply shortage the DWSS Administrator has the discretion to authorize use of LIHEAP funding to assist eligible recipients with in-kind and energy related needs.</p>	150% FPG	\$0	\$0	\$1,920

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
New Hampshire	<p>The New Hampshire Fuel Assistance Program determines that an applicant household is in crisis based upon the following situations:</p> <p>For applicant households with deliverable fuel having 1/4 tank or less (oil and kerosene) or 20% or less for propane. For applicant households heating with a metered utility having a disconnect notice, and when heat is included in the rent having received an eviction notice, are all considered to be an energy crisis.</p> <p>The applicant facing a non life-threatening energy emergency must have the opportunity to apply for fuel assistance within the next business day of the initial contact and have resolution of the emergency within 48 hours.</p> <p>The application for households with an energy emergency is given certification priority. If eligible, the vendor will be notified to authorize an emergency delivery, or in the case of a utility disconnection or eviction notice, payment guaranteed.</p>	60% SMI	\$1,575		
New Jersey	<p>A crisis assistance is one where a household is in danger of running out of fuel or where a client receives a shutoff notice. This crisis must be resolved within 48 hours.</p>	200% FPG	\$600		
New Mexico	<p>Households that have received a written disconnect notice from their utility vendor or a statement of non-delivery or sale of fuel from their fuel vendor due to lack of payment or inability to pay, have insufficient funds to open an account or meet the security deposit requirements may be eligible to receive a crisis LIHEAP benefit. The Department is required to provide intervention to resolve an energy crisis that may exist. The processing of the applications for households in a crisis situation includes contacting the utility company or fuel provider within the specified time frames to resolve. Contact with the utility vendors will be provided no later than 48 hours after the household's application for LIHEAP benefits has been approved and 18 hours for households with a life-threatening emergency. Crisis intervention is not available to households that have already received a LIHEAP benefit in the current federal fiscal year.</p>	150% FPG	\$0	\$0	\$560

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
New York	The definition of a crisis emergency is when loss of heat is imminent. Imminent loss of heat is defined as less than ¼ tank for oil, kerosene or propane or less than a ten-day supply for other deliverable fuels, or heat or heat related utility service is scheduled for termination.	60% SMI or 150% FPG for hh of 11+	\$675		
North Carolina	A household is in a crisis if it is currently experiencing or is in danger of experiencing a life-threatening or health-related emergency due to lack of heating/cooling, and sufficient, timely, and appropriate assistance is not available from any other source.	150% FPG			\$600
North Dakota	Energy Crisis: This term means weather-related and supply shortage emergencies and other household energy-related emergencies.	60% SMI			\$500
Ohio	Ohio uses 60 percent of the State Median Income as it best correlates to 175 percent of the HHS Federal Poverty level. Households must be at or below 175% of the Federal Poverty Level in order to be determined eligible. For Heating Crisis Assistance: an actual disconnection, notice of disconnection, or less than 25 percent supply of deliverable fuel, or a furnace needing repair to be operable. For Summer Crisis Assistance: medical certification, or elderly (age 60 or older).	60% SMI	\$750	\$500	\$0
Oklahoma	A utility crisis exists when a household is within 72 hours of having their heating or cooling utility disconnected, or within 72 hours of running out of heating fuel (usually propane), has a refusal to deliver from propane/kerosene supplier, or without heating or cooling utility and need assistance establishing or restoring service during our ECAP General Open Enrollment period. The household must have a precipitating factor that caused the household to choose between paying the energy bill and another vital household need.	130% FPG			\$500
Oregon	A crisis exists when a household faces an energy burden which depletes or threatens to deplete financial resources, or which poses a potential health and/or safety threat to the well-being of the household.	60% SMI			\$500

Texas	A bona fide Household crisis exists when extraordinary events or situations resulting from extreme weather conditions and/or fuel supply shortages have depleted or will deplete household financial resources and/or have created problems in meeting basic household expenses, particularly bills for energy so as to constitute a threat to the well being of the household, particularly vulnerable population households (the elderly, persons with disabilities, or children age 5 and younger). A utility disconnection notice may constitute a household energy crisis.	150% FPG (60% SMI)	\$0	\$0	\$1,200
Utah	A crisis exists when a household has a 48 hour shut off notice or less than 10% in their tank for deliverable fuels and faces a sudden or unexpected event beyond their control resulting in the inability to pay household heating costs.	150% FPG	\$0	\$0	\$2,000
Vermont	A crisis is found to exist in households that are at imminent risk of losing home heating because they have nearly exhausted their current supply of primary heating fuel, or have received a shutoff notice from their natural gas or electricity company, and the company either provides metered service for their primary heating source, or supplies service to a necessary component of their primary home heating equipment. Criteria for determining the existence of a home heating crisis include, but are not limited to, the following circumstances: (1) the household's primary heating fuel tank is at 25% or less of its full capacity; (2) there is one week's supply or less of fuel for households whose primary heating sources include firewood, wood pellets, or coal; (3) the household has received a disconnect notice for a metered utility, and the utility is responsible for either providing the household's primary fuel source, or for operation of a necessary component of the household's primary home heating equipment.	150% FPG	\$644	\$0	\$0

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
Virginia	The Crisis Assistance component is designed to help households meet energy emergencies that cannot be met by other resources. The emergency may result from a weather related or supply shortage emergency such as: no source of heat; the only heating equipment in the home is inoperable or unsafe; or there is a potential no heat situation. Crisis Assistance will be provided when the conditions for providing assistance are met and the assistance will ensure heat for the household. Crisis Assistance intervention must resolve the energy crisis of eligible applicants within 48 hours, or 18 hours if in a life threatening situation. Assistance with the purchase of primary fuel and the payment of the primary utility bills is provided to households who did not receive Heating Assistance or who have exhausted their heating benefit.	130% FPG	\$2,500	\$0	\$0
Washington	Crisis is defined individually by each sub-grantee and approved by the Department of Commerce at the beginning of each program year when sub-grantees apply to provide LIHEAP services. Definitions range from sub-grantee to sub-grantee, from a shutoff notice or less than a 10 day supply of fuel to being shut off or without fuel.	125% FPG	\$1,000	\$0	\$0
West Virginia	The definition of crisis is being without home heating or being in danger of not having home heat and not having the resources to resolve the crisis on your own, such as no money for the utility bill or no money for the repair or replacement of the main heating source. A disconnect notice is required to verify the crisis, if the threat is loss of the utility. If the heating unit is no longer functioning or is considered unsafe heat, the client can be evaluated for the Emergency Repair or Replacement Program.	150% FPG	\$700	\$700	\$700

State	Crisis Definition	Eligibility	Winter	Summer	Year-round
Wisconsin	<p>Households must have existing/imminent lack of adequate heat/cooling in dwelling (emergency), or a risk of a heating emergency (proactive). While there is not a formal asset test, consideration may be given to resources available to the household before assistance is provided. No household will be eligible for crisis cooling assistance without a declaration by a local or state public health agency of a heat emergency and authorization is given by the Department of Administration.</p> <p>A household may receive more than one crisis assistance payment.</p> <p>Determination of eligibility for regular heating assistance benefits will determine a household eligible for crisis assistance for the remainder of the program period if the household has contributed \$25 or more towards their heating costs in the three months prior to application for crisis assistance.</p>	60% SMI	\$0	\$0	\$1,200
Wyoming	<p>In Wyoming, we refer to Crisis Situations as Special Situations. Special Situations include: deposits either to restore or establish power; back bill assistance to help avoid disconnections and restore power after disconnection; deliverable fuel special fill to avoid running out of heating fuel; propane tank set and rental assistance; heat loss emergency due to heating system failure; and heating system failure prevention assistance. These types of Crisis assistance are designed to remove or prevent a life or health threatening situation relating to a heat loss emergency or potential heat loss emergency.</p>	60% SMI	\$560	\$0	\$0
